

# AdManager Integration

## 1. Select Tools - AdManager - Show Ads Settings

## 2. Now fill your ad unit ids from ad networks.

A screenshot of the 'AdManager' settings window in Unity. The window has a dark grey background with various sections and controls. The 'Common' section is expanded, showing checkboxes for 'Enable ads' (checked), 'Debug ads' (unchecked), and 'Enable AdMob', 'Enable Chartboost', 'Enable Unity Ads', and 'Enable AdColony' (all checked). Below these is a 'Select platform:' dropdown set to 'Android'. The 'Interstitial ads order' section shows 'order 1' as 'AdMob' and 'order 2' as 'Chartboost'. The 'Video ads order' section shows 'order 1' as 'UnityAds', 'order 2' as 'Chartboost', and 'order 3' as 'AdColony'. The 'Unity Ads' section has an 'App ID Android' field with the value '1008062'. The 'Admob' section has an 'Interstitial ID Android' field with the value 'ca-app-pub-9692610173697432/7598306674'. The 'Chartboost' section has four fields: 'App ID Google Play' (543ddba6c26ee43759168948), 'App Sigh Google Play' (0602fa5275d280fc9e2cc3bfe29cb2f930a8fdd8), 'App ID Amazon Store' (54052409c26ee42f095424ae), and 'App Sigh Amazon Store' (c4fdf2a2ac9efb7e99d6225c3f6f66d3fc485809). The 'AdColony' section has two fields: 'App ID Android' (app000c69c7bbd8452ba0) and 'Zone ID Android' (vz692700c8578041fb84).

order 1: AdMob

order 2: Chartboost

**Video ads order**

order 1: UnityAds

order 2: Chartboost

order 3: AdColony

**Unity Ads**

App ID Android: 1008062

**Admob**

Interstitial ID Android: ca-app-pub-9692610173697432/7598306674

**Chartboost**

App ID Google Play: 543ddba6c26ee43759168948

App Sigh Google Play: 0602fa5275d280fc9e2cc3bfe29cb2f930a8fdd8

App ID Amazon Store: 54052409c26ee42f095424ae

App Sigh Amazon Store: c4fdf2a2ac9efb7e99d6225c3f6f66d3fc485809

**AdColony**

App ID Android: app000c69c7bbd8452ba0

Zone ID Android: vz692700c8578041fb84

3. AdManager initialization (before to show interstitial/video ads):

```
AdManager.initialize();
```

4. Show Interstitial ads:

```
AdManager.showInterstitial();
```

5. Show rewarded video ads:

```
AdManager.showRewardedVideo();
```

## Callbacks

Interstitial:

```
public void onInterstitialLoaded() {  
    print("Interstitial loaded");  
}
```

```
public void onInterstitialFailedToLoad() {  
    print("Interstitial failed");  
}
```

```
public void onInterstitialOpened() {  
    print("Interstitial opened");  
}
```

```
public void onInterstitialClosed() {  
    print("Interstitial closed");  
}
```

```
public void onInterstitialClicked() {  
    print("Interstitial clicked");  
}
```

```
AdManager.setInterstitialCallbacks(this); // set callbacks
```

Video:

```
public void onVideoLoaded() { print("Video loaded"); }
```

```
public void onVideoFailedToLoad() { print("Video failed"); }
```

```
public void onVideoOpened() { print("Video opened"); }
```

```
public void onVideoClosed() { print("Video closed"); }
```

```
public void onVideoClicked() { print("Video clicked"); }
```

```
public void onVideoFinished() { print("Video finished"); }
```

```
AdManager.setVideoCallbacks(this); // set callbacks
```
